

CANDIDATE STATEMENT OF GREG CONLON FOR ATHERTON TOWN COUNCIL

As a senior citizen of Atherton, I have served the Town on its various committees including the Audit and the Finance Committee, and the Rail Committee. As a CPA and businessman, I am able to serve the Audit and the Finance Committee. In addition, I served for six years on the California Public Utilities Commission (CPUC) as a commissioner and two years as its President. This CPUC experience allows me to address the rail challenges the Town continually has into the future on the installation of rail Electrification on-going and the High-Speed Rail system.

I have also served on a Non-profit called Pineview Housing in San Francisco. As Board member of Pineview and its parent Self-Help for the Elderly, we oversaw the construction of an 85-unit Senior Housing Project in San Francisco. This experience will help me address the housing issues the Town is facing now. I have served the Town on these Committee's including the installation of the Quad Gates at Fair Oaks Lane. I have the experience to serve and look forward for your vote to meet these challenges.
